

HUBB SWAP™

Filter Cleaning Exchange

IMMEDIATE SAVINGS
NO INVESTMENT
EASY TO IMPLEMENT

How HUBB Swap Works:

1. Swap the dirty inner core for a clean inner core supplied by HUBB.

2. Mail dirty cores to HUBB for cleaning, inspection, and certification.

3. HUBB will send clean inner cores back to you.

4. Simple, affordable monthly fee.

Simple. Clean. Easy. Sustainable.

HUBB SWAP

BUILT BETTER

- Ⓢ Reusable, renewable, a win for the earth
- Ⓢ Faster and better oil flow at start-up and idle, protecting your engine
- Ⓢ Better in capturing contaminants, extending oil life, and saving you money

Reusable

800 million conventional oil filters end up in landfills each year, according to the EPA. By switching to HUBB sustainable oil filters, you can make an impact on reducing this number.

Renewable

Replace disposable conventional oil filters with a better performing, more sustainable oil filter, that saves you money and keeps your fleet on the road, working longer.

A Win for the Earth

Achieve environmental and financial success with HUBB sustainable oil filters.
