

HEAT FLEXX®

THE ONLY WORKING HEATED WIPER BLADE

SAFE DRIVERS OF AMERICA

Let us introduce ourselves, we are **Heatflexx** a revolutionary heated wiper system that will fit and work with almost any vehicle! No other product since the automatic car starter has had such an impact on the comfort and safety of drivers in bad winter weather! Our heated wiper makes winter driving safer while prolonging the life of the wiper itself and keeping the windshield clean and free of ice build up. This prevents the driver from having to bang the wiper off the window to get rid of ice build up and it will save you money on wiper fluid.

The blade itself is the new frameless design that provides continuous even pressure to the windshield, reducing streaks and reduces wind lift up to 150MPH it is also very simple to install, just plug them in to your 12volt power source or cigarette lighter. And they will fit almost all vehicles.

EVEN THIS ONE!

INSTALLS IN ANY VEHICLE.
AS YOU CAN SEE IT DOES WHAT WE SAY IT DOES!
